Student Name:	
Title of Fiction Book (novel, chapter book, etc.)	

<u>Parents/Guardians</u>: Between February 16th and March 10th, I've asked the grade four class to choose and finish a fiction narrative (story) book. Depending on interests and reading levels, these choices could include a book of short stories, a chapter book in narrative (story) form and/or a complete novel for junior readers. With my initial below, I am telling students that their book choice (written above) is suitable for their reading level in grade four.

Your child's book choice can always be discussed at home and changes can always be made with your input. Please initial below so that I am aware that you've seen this log form. I am encouraging students to increase their home reading of these book choices so that we can proceed with projects about their choice in early March. Books can always be brought home as long as they reappear at school the next day!
